# High quality food supplements for pets

Private label specialist since 1997

*Pet-Fit has been producing high-quality food supplements for pets in Bad Salzuflen since 1997. Great flexibility in production and modern machines enable manufacture of mass products as well as specialist items to customer's own specification.*

We are the specialist for private label: Pastes, powders, tabs and oils as well as bottling of all kinds. We offer production, filling, labelling, packaging as well as shipping. We are characterized by modern flexibility and delivering customer-specific mixtures and recipes from small minimum quantities and in a large variety of packaging eg. cans, bottles, cartons and much more. In addition to the products, we offer numerous individual services such as the joint development of your recipes or the design of customer-oriented labels and packaging.

Our IFS certification confirms our commitment to highest quality standards

Pastes for pets  
- individuality  
and  
differentiation

## The Classics

Malt and vitamin pastes for cats, dogs and rodents, highest acceptance, in a wide variety of flavors and colours, monochrome or as a duo-paste.

## The Specialists

In the functional category we offer, among a large assortment of pastes for kittens, seniors, kidney / bladder, skin / coats, joints / mobility, biotin, immune and so much more. We also produce pastes for rodents, reptiles and other pets.

## The special Ones

Do you have your own ideas for a private label product in terms of content, functionality or colour? We are happy to process your recipes or premixes or to manufacture YOUR PRODUCT together with you.

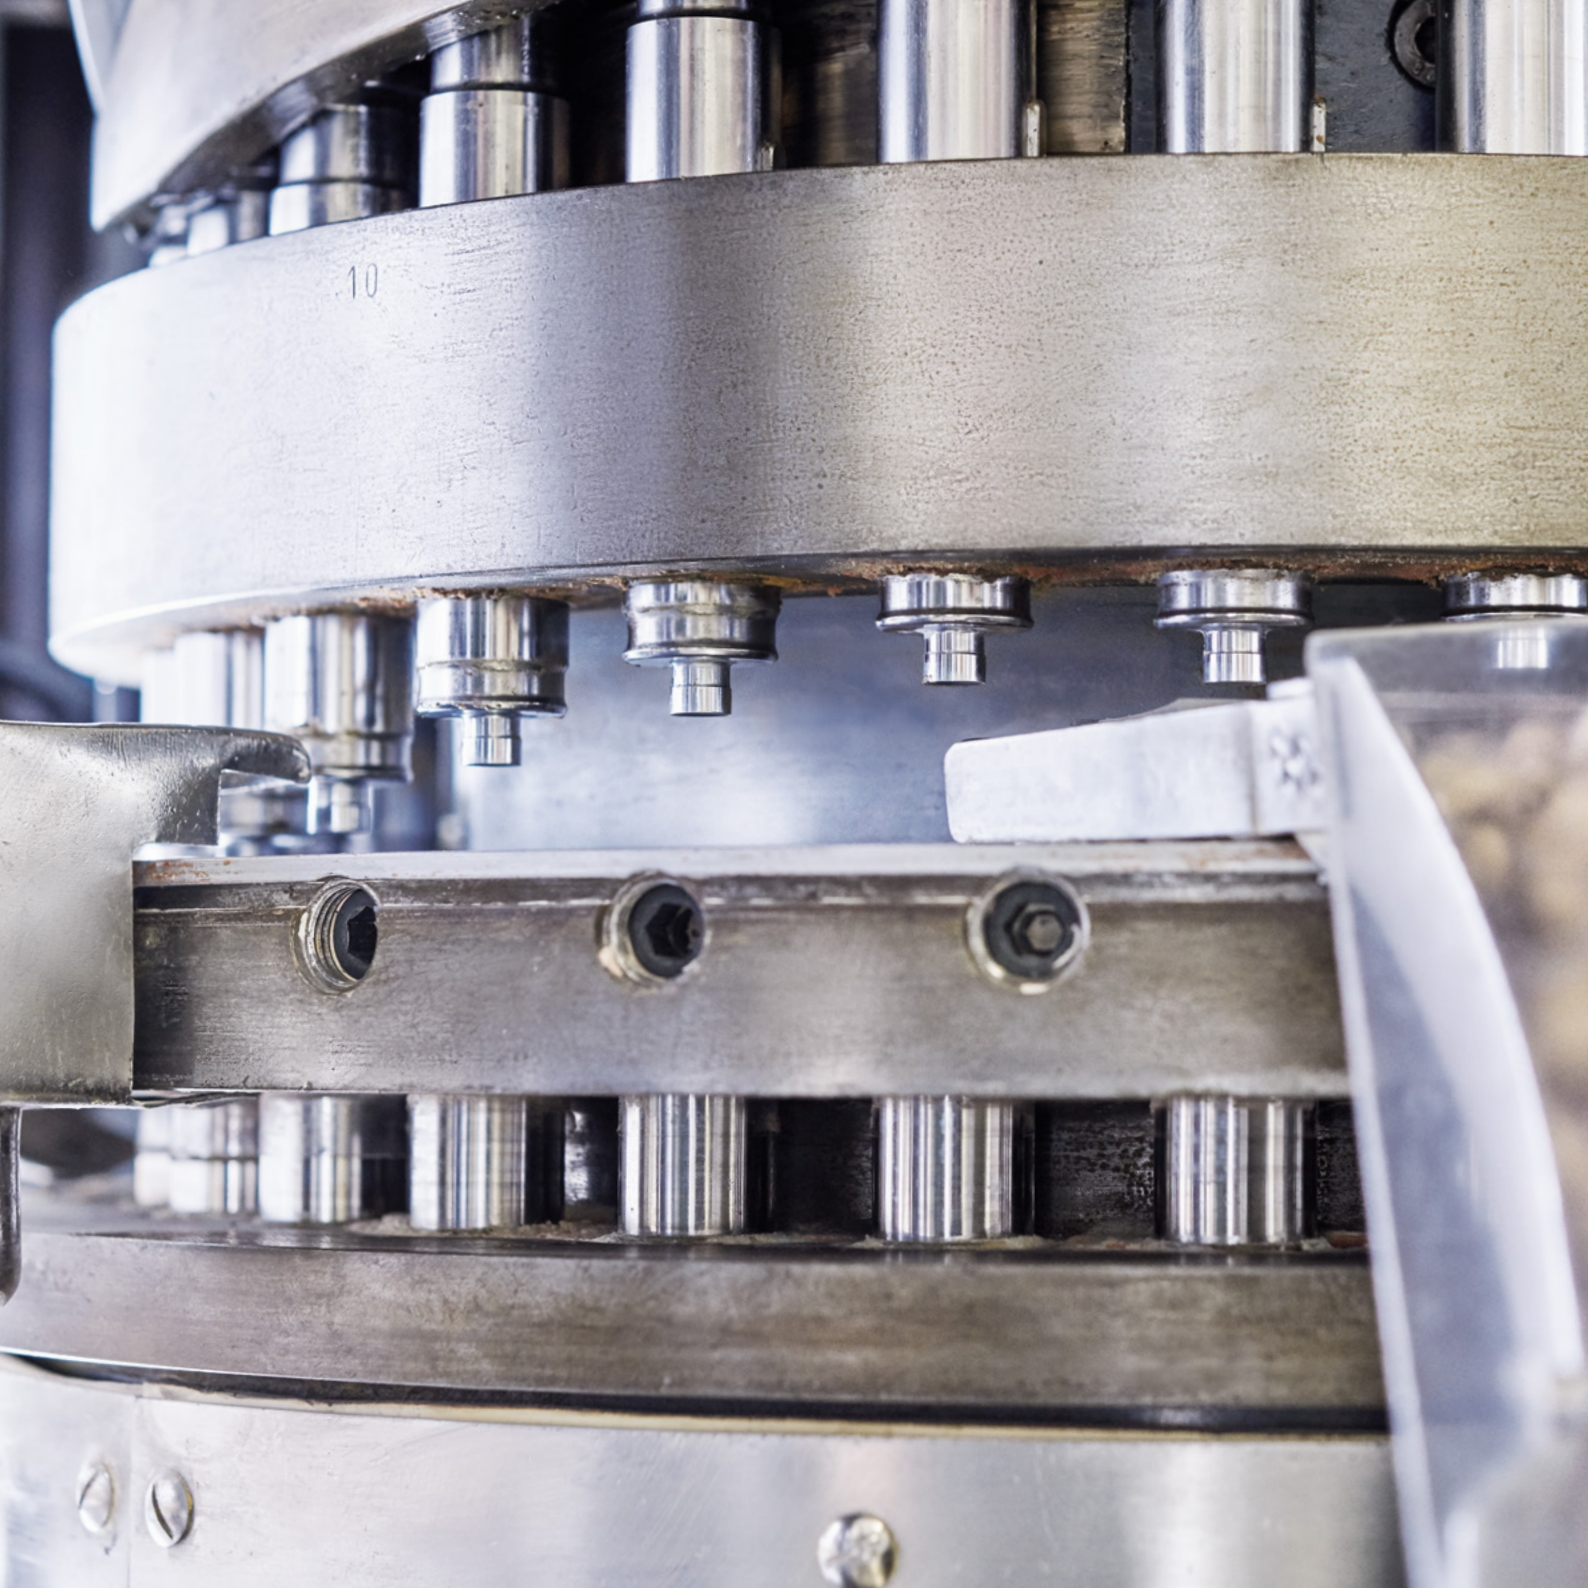

## High quality addition: Our powders

The production of powdered food supplements has a long tradition in our company. High-quality raw materials, efficient mixing processes and modern packaging systems allow us to offer a wide range of different powders. For example, Dog and cat milk, calcium supplement, bone-, shell- or algae meal, mineral mixtures, dental care powder, garlic powder / granules and much more. Here, too, individual solutions are our strength: From as little as 95 kg we can provide you with your individual mix.

### Highest quality - Made in Germany

Tabs for dogs and cats in many different shapes and colors. You decide on the recipe and shape, we produce your desired product with our modern tablet presses. Our offer includes the following tablets: Calcium, yeast, garlic, vitamins, chlorophyll, mint and more. We can offer your individually created tabs from a quantity as little as 95 kg.

## A strong segment: Oil Food Supplements

Pet-Fit offers its customers a wide variety of oils and oil mixtures, be it in PE or metal bottles. Here too, in addition to the classics of salmon oil, feed- and cod liver oil, we can create your own individual blends from small batch quantities.

## Our products

Our presentation of pastes is organized in three categories:

**DailyLife** includes products that supplement the animal's supply of nutrients and thus guarantee a balanced diet.

**DailyCare** aims to reduce physical weaknesses and problems of the animal by way of a health issue-related food supplement.

**LifeCycle** Supplementary food specially tailored to the needs of puppies / kittens and seniors.

We present the products for dogs according to the administration format:

1. Pastes
2. Powder
3. Tabs
4. Oils

The rodent pastes complete our range.

The supplementary feed presented here **can help** to optimize the nutrition of the animal through individual nutrients and thus increase the quality of life.

Our products **can** also help to alleviate health issues. However they are not medical items and are no substitute for consulting a vet, if the animal has acute problems.

## CATS DailyLife pastes

The minimum order quantity for your paste is 250 kg, the possible filling quantities are between 20 g and 250 g.

Tubes and displays are individually manufactured and printed according to your specification.

Depending on the selected paste, the minimum shelf life is between 15 - 24 months. All pastes are available as mono-paste (one color) or duo-paste (two-tone) available.
