Premium Quality Feed Supplements for Pets

Specialist for Private Labels  
since 1997

MADE IN GERMANY

Pet-Fit in Bad Salzuflen has been producing premium quality feed supplements since 1997. Great flexibility in our production and state-of-the art machinery allow us to produce mass items as well as customized items tailored to our customers' wishes.

We are the specialist for private labels – pastes, powders, tablets and oils as well as fillings of all kinds. Our offers include production, filling, labelling, packaging, shipment. We excel with our cutting-edge flexibility and supply customized mixtures and formulas starting from small minimum quantities and in a large variety of packaging containers, bottles, boxes and many more. Alongside our products, we offer numerous individual services as for example a joint development of your formulas or the design of customer-oriented labels and packaging.

MADE IN GERMANY

We are  
**THE SPECIALIST**  
for private label

Рекомендация: 2-3 см пасты в день. Рекомендуется постоянное применение в течение нескольких недель.  
Содержит продукты растительного происхождения, растительное масло, тыква (0,5 %)

Pastes for Pets  
– individuality  
and differentiation

## Our Classics

Malt and vitamin pastes for cats, dogs and rodents, highest level of acceptance, in various flavours and colours, plain or as duo-paste.

## Our Specialists

In the functional range, we offer pastes for kittens, seniors, kidney/bladder, skin/fur, joints/mobility, biotin, immune and many more. In addition to that, we also produce pastes for rodents, reptiles and other pets.

## Our Special Extras

You have your own ideas regarding content, functionality or colour for your private-label product? We are glad to manufacture your formulas or premixtures or compile YOUR product together with you.

## Premium quality supplements: Our powders

The production of feed supplements in powder form has a long tradition in our company. High quality raw materials, efficient mixing procedures and state-of-the-art packaging lines allow us to offer a wide range of different powders, e.g. dog and cat milk, bone-building calcium, bone-, seashell- and algae meal, mineral mixtures, dental care powders, garlic powders/granules and many more. However, individual solutions are our strength here as well: We can produce your individual mixture as desired starting from 95 kg.

## Highest Quality – Made in Germany

Tablets for dogs and cats in various shapes and colours. You decide on formula and shape, we produce the product you desire with our state-of-the-art tablet press. Our range includes the following tablets among others: calcium, yeast, garlic, vitamin, chlorophyll, mint and many more. We can create your desired tablets already from an amount of 95 kg.

## A strong Segment: Oils as Feed Supplements

At Pet-Fit we offer our customers various oils and oil mixtures, both in PE or metal bottles. Alongside our classics such as salmon -, fodder - and cod liver oil, we supply your individual mixtures starting from small total quantities.

## Our Products

**We present our pastes for cats in three categories:**

**DailyLife** comprises products that supplement the pet's nutrient supply ensuring a balanced diet.

**DailyCare** aims to alleviate a pet's physical weaknesses and problems with supplements that target these problems.

**LifeCycle** Feed supplements that specially target the needs of puppies/kittens and seniors.

**The products for dogs are presented by the type of preparation.**

1. **Pastes**    2. **Powders**    3. **Tablets**    4. **Oils**

Our rodent pastes top off our product range.

The feed supplements presented here **can** optimize the pet's diet by adding individual nutrients and they can improve the pet's quality of life.

Our products can be used in a supportive role for ailments. They are not medical items and cannot replace a visit to the veterinarian should your pet have acute problems.

## Private Label

The packages displayed in the following are simply draft versions.  
The layout of each individual product is determined by the customer alone.

*Your  
label*

## Hemp based products

Benefit from a current trend with our private label innovation

Pet food containing hemp has been on the market for a long time and is offered in a wide variety of dosage forms. In this context we are pleased to introduce a novelty from our company. We have succeeded in creating a product that combines untreated hemp from EU-certified cultivation with the classic components of Malt Paste. The hemp paste for dogs and cats is available with a hemp content of 5% or 10% or on request also as vegan. In this segment we offer hemp powder, hemp tabs and hemp oil in custom mixtures.

Take advantage of this innovation to complement your private label range and generate new customer groups.

## Natural Herbs for Pets

The supporting powers of herbs have been known for centuries and have always been used in a variety of ways.

In nature, wild animals follow their instincts when they experience pain, discomfort or fear and look for the herbs they need.

So that your pet can also make use of the power of nature, we have created herbal mixtures whose natural effectiveness supports the well-being of your animals.

Our herbal blends only contain herbs from sustainable cultivation, without the addition of aromas, flavour enhancers or preservatives. They are carefully filled by hand and packed and labelled in line with your wishes and needs.

## Globules for Pets

Natural flower mix based on the original recipes of Dr. Bach

Homeopathic healing methods for humans are in vogue. However, there are globules for animals that can also help dogs and cats. The mode of action of the individual globules for animals corresponds to that of their human counterparts. The „German Homeopathy Union“ points out however, that the correct dosage also plays a role.

Globules for animals are now often used as a gentle and generally well-tolerated method to support the healing process and enable pet owners to treat their animal themselves. The aim of animal homeopathy is not only to alleviate symptoms, but also to treat the reactions to the causes and thus tailor to each animal individually.

Pet-Fit offer you a complete range of globules for pets to complement your current product range. Let us know your requirements in terms of packaging and label design.
